NATUROPATHIC ONCOLOGY RESEARCH INSTITUTE (NORI)**

**AND THE
INTERNATIONAL NATUROPATHIC CLINICAL RESEARCH INSTITUTE**

**AND THE
INSTITUTIONAL REVIEW BOARD (IRB)**

May 13, 2022

MINUTES AND MEETING NOTES

In accordance with the requirements of the United States Code of Federal Regulations, Title 21, Chapter 1, Subchapter A, Part 56, as well as Title 45, Part 46, the fiftieth regular quarterly meeting of the American Naturopathic Research Institute (ANRI) and the Naturopathic Oncology Research Institute (NORI) and the International Naturopathic Clinical Research Institute (INCRI) and the Institutional Review Board (IRB) was called to order at 12:10 p.m., May 13, 2022 at 1250 E. Baseline Rd., Suite 205, meeting in Suite 203, Tempe, AZ 85283.

NOTICE OF INCORRECT INFORMATION AT MEETING:

“The reports of my death are greatly exaggerated.” -- Mark Twain

THE IRB IS NOT NOW DEFUNCT, NOR HAS IT BEEN AT ANY TIME IN THE LAST 12 YEARS OF OUR EXISTENCE. GOVERNMENT RECOGNITION IS NOT REQUIRED FOR THE EXISTENCE OF AN IRB. PLEASE REVIEW THE ABOVE-NOTED LEGAL STATUTES IN THE HEADING OF THESE MINUTES. NO IRB IS

REQUIRED TO REGISTER WITH THE US OR STATE GOVERNMENT. THIS WAS DONE IN THE PAST **OPTIONALLY** FOR SPECIFIC STUDIES AT THIS IRB, AT THE REQUEST OF THE PRINCIPAL INVESTIGATOR OF EACH STUDY ON INITIATION OF THEIR STUDIES. A NUMBER OF THESE PARTICULAR STUDIES HAVE NOW EXPIRED, BECAUSE THE PRINCIPAL INVESTIGATOR DID NOT SHOW UP TO OUR MEETINGS AT LEAST ONCE PER YEAR TO REPORT UPDATES ON THEIR STUDIES, WHICH IS REQUIRED BY OUR IRB RULES.

BUT THERE IS NOTHING BY LAW REQUIRING ONGOING UPDATES OF STUDIES OR RE-REGISTRATION WITH THE GOVERNMENT.

Please try to commit the above to memory. Dr. Andrews must have stepped out of the room before the false claim was made, because I explained the above to him by email on 3/16, 3/17 and again on 3/20/22, when he asked about “expiration” or becoming “defunct,” and he could have let the group know about that, if he were there.

MEMBERS AND GUESTS

14 members and guests were in attendance, including 6 physicians.

PROPOSED AGENDA ITEMS

Teeth
Toxins; heavy metals
Scars
Emotions
Individualized or personalized medicine

GENERAL DISCUSSION

In addition to the above, discussion topics included immune function and fever, as well as cancers such as glioblastoma, sarcoma and bladder cancer.

GRAND ROUNDS

Cases including cancer, UTI, spike protein toxicity and Hashimoto’s were discussed.

MASKS

Another recent study found that wearing or not wearing a mask does not stop flu spread and will not stop spread of COVID. Pulmonary fibrosis is a risk with mask-wearing.

NEXT MEETING

2nd Friday of August, 2022. - August 12, 2022
